## Professional Experience

---

### Senior Software Engineer

#### **Crystal Bay Software**

*San Francisco, CA (remote)*

*Jan 2020 - Feb 2023*

- Leveraged a wide set of GCP (Google Cloud Platform) utilities and processes
- Maintained two legacy App Engine stacks for a major mental health practice
- Converted dozens JS-based modules into Typescript as bugs surfaced
- Identified and resolved 250+ bugs, proactive & hotfixes
- Implemented 270+ requested features
- Setup a seamless CI/CD trigger process for staging/production deployments
- Assisted in the planning and architecture of CaseConsult.net
- Experienced with APIs such as PubNub, SendGrid and Twilio
- Scrum twice a week with the founder to discuss business needs
- Daily JIRA, Bitbucket, Slack & Email usage for team cohesion

### Software Engineer

#### **Conviva Ltd.**

*Foster City, CA (remote)*

*Dec 2018 - Jan 2020*

- Integrated Delmondo's app into Conviva's product-line, 'Social Insights'
- Daily scrum & coordination with Beijing engineering team
- Resolved 56+ backend API, database-related bugs
- Resolved 22+ frontend React, Redux, Ant-Design related bugs & enhancements
- Integrated important unit tests new to the stack (enzyme, react-hooks-testing-library)
- Utilized Jenkins to stage builds for test engineers
- Worked in 4 major APIs (Facebook, Twitter, YouTube) via Postman

### Full Stack Software Developer

#### **Delmondo Inc.**

*New York, NY (remote)*

*Dec 2016 - Dec 2018*

- Collaborated with a tight-knit group to develop a unique social analytics app
- Completed 315+ frontend & backend features & bug fixes
- Implemented 20+ beautiful dynamic-data charts with Highcharts
- Created & enhanced dozens of MySQL queries using SequelizeDB
- Delved into Facebook Graph API to troubleshoot some difficult bugs
- Streamlined UX through careful consideration & testing
- Used Sentry for automated bug tracking

## Business Systems Engineer

### Media Temple Inc.

*Culver City, CA (semi-remote)*

*Jan 2008 - Jul 2016*

Wore many hats over the years. Obtained a firm understanding and mastery in DNS, problem discovery, customer support and full stack web design.

- Business Systems Engineer *(Jan 2010 - Jul 2016)*
- Customer Support Project Supervisor *(Jan 2013 - Dec 2014)*
- Customer Service Supervisor *(Nov 2011 - Jan 2013)*
- Quality Assurance Manager *(Nov 2010 - Nov 2011)*
- Quality Assurance Specialist *(Sep 2008 - Nov 2010)*
- Technical Support Representative *(Jan 2008 - Sep 2008)*
